

HIGHTOWER  
White Pine Wealth Management

Dear Client:

We wanted to touch base on the markets following the news that the President and First Lady have tested positive for COVID 19. History has shown that markets can react negatively in the short term to uncertainty, and this news certainly adds another element of uncertainty. The US Government has protocols in place for exactly this type of event and is well positioned to navigate this storm.

There are many scenarios that could play out as we learn more about the President's condition and the impact on the election and the markets. We will not try to predict any outcome at this time. History tells us that making any large changes to our investment strategies in times like this is not productive. We also understand that the events of 2020 are unprecedented, and we will be watching closely.

Please reach out to us via email or phone if you have questions. We are here for you.
